

# Our Product Lines

\*Not all product lines are available in all states. Please contact your BarTron Account Manager for more details.

[www.BarTroninc.com](http://www.BarTroninc.com)

\*Bartector traceability and set up verification. AccuStock automatic reel storage system.

Bring factory speed, control, and visibility to manufacturing operations.

Stencils, Pallets, Fixtures, Tooling, Storage Carts, Functional Test. Fixtures and Build to Print Services.

\*High Precision Hand Tools and Optical Inspection Systems.

Batch, Inline, Laser Depaneling. Laser Marking, Cutting, Welding. Odd-Form and Final Assembly work cell solutions. In Line and Batch Testing Solutions.

\*AOI for Pre and Post Reflow Inspection. 3D Solder Paste Inspection. CMM Coordinate Measurement.

A comprehensive solution for Cleaning machines, fluids, hand-sprays, and process controls for all associated cleaning applications.

\*Flying Probe Testers, First-class Electronic-Board Test Systems, and Electronic Manufacturing Software.

\*The World Wide Industry Leader in electronics manufacturing.

\*Soldering, Desoldering and Rework Stations. Fume Extraction, Solder Pots, and Hand Tools.

The market leader in Reflow Oven Technology, supplies solutions for electronics manufacturers and assemblers worldwide.

Global solder supplier specializing in solder products and paste for electronics assembly materials.

\*Smart Technology Solutions for reflow oven and wave solder thermal process management and profiling.

\*Global Industry leading selective solder equipment and training.

\*World Class Dispensing, Conformal Coating, and custom Automation

\*Industry leading Test Probes for in-circuit testing, and interfacing test fixtures to automatic test equipment.

\*American made Conveyors, Workstations, Specialized Handling Equipment and Automation.

Comprehensive printing solutions with a focus on value, flexibility and low cost-of-ownership for the SMT and Semiconductor industries.

On-demand in-house Nitrogen generation systems. These US made systems are a safer, smarter and more cost-effective solution.

The most accurate Non-Contact (X-Ray) counting systems for electronic components.
